

## **Regus Group grows into St. Charles**

March 04, 2009

ST. CHARLES - The Regus Group has opened its first fully-furnished and equipped business center in the area since the national economic downturn, responding to growing demand for cost effective places to work with flexible terms that align with the way business gets done today. Located in The Plaza building on the Fox River, the center is Regus' first in St. Charles and its 29th in the Chicago suburbs. The company provides a full range of workplace products - from a virtual office that establishes a local presence, to day offices and meeting rooms, to full time offices.
